Navi Mumbai

SUMMARY

Highly motivated and results-oriented professional with **10+ years of experience** in data management, analysis, and project execution. Possesses a strong foundation in **data quality** principles and leverages **Python** and **SQL** to automate data mining, transformation, and validation tasks. Proven ability to identify and resolve data discrepancies, ensuring data integrity and compliance. Demonstrates excellent **communication** and **collaboration** skills, effectively managing teams and communicating project status and data insights to stakeholders at all levels. Seeking a Data Scientist role to leverage technical expertise and analytical skills to solve complex problems and generate valuable insights.

EXPERIENCE

Database Engineer II

Here Technologies 04/2022 - Present Navi Mumbai, India

Specialized in mapping technologies

- Developed an automated validation reporting system using **FME** to optimize data, enhancing accuracy and boosting database release quality by **95%**.
- Developed **Python scripts** with libraries like **Pandas** for **automated data mining**, achieving a **20% reduction in manual effort**. This empowered stakeholders with **clean data** for **weekly comparisons**, leading to **data-driven decision-making**.
- Performed **data transformations** using **SQL** to compare historical and current datasets. This process identified and resolved **95% of potential data loss** instances, ensuring compliance with data integrity standards.
- Communicated **project status and data insights** to over 10+ stakeholders, fostering transparency and collaboration.
- Conducted **quality checks** on 5+ process documents, ensuring data quality through **data validation**.

Database Engineer I

Here Technologies 09/2019 - 03/2022 Navi Mumbai, India

Specialized in mapping technologies

- Performed **rigorous data quality checks** on databases before weekly, monthly, and quarterly releases, guaranteeing **data accuracy and reliability** for downstream analysis.
- Executed thorough **User Acceptance Testing (UAT)** on data to uphold data quality standards, ensuring **100% clean data ingestion**.
- Provided expert **JIRA support** to ensure smooth data pipeline implementations. **Managed and resolved customer escalations** related to data issues.

Spatial Data Specialist

Here Technologies 01/2015 - 08/2019 Navi Mumbai, India

Specialized in mapping technologies

- Acted as **Subject-Matter Expert (SME)** for **5+ diverse projects**, demonstrating strong analytical and problem-solving skills to ensure process efficiency and data integrity.
- Facilitated **transparency and collaboration** by sharing weekly project status updates with over 20 stakeholders.
- Proactively identified and addressed over 30 project issues**, demonstrating strong data analysis and problem-solving skills to mitigate potential risks and ensure data quality.
- Managed team workload allocation for 15+ team members**, fostering a collaborative environment that optimized project execution and data analysis efforts.

SKILLS

Algorithms Data Integrity

Data Manipulation Data Mining

Data Visualization EXCEL JIRA

SQL ETL NumPy Pandas

Scrum Master UAT

Statistical Analysis

PROJECTS

Walmart Customer Profiling

- Recommendations:** Tailor marketing campaigns based on identified customer segments to optimize effectiveness and ROI.
- Technologies:** Statistical Analysis, Python, Pandas, NumPy.
- Lessons Learned:** Enhanced skills in data manipulation, statistical analysis, data visualization.

Netflix User Engagement

- Recommendations:** Improved content personalization algorithms, resulting in a 15% increase in user engagement.
- Technologies:** Python, Pandas, SQL.
- Lessons Learned:** Enhanced proficiency in data analysis, particularly in the context of user behavior analytics in the entertainment industry.

EDUCATION

Bachelor's Degree in Information Technology

Elphinstone College

01/2010 - 01/2013

CERTIFICATION

Pursuing Data Science and Machine Learning Course.

Excel Automation Using Python

Python PCEP: Become Certified Entry-Level Python Programmer

Licensed Certified Scrum Master.
